## Play system with built-in playhouse

Rios is one of several Explore models which has a built-in playhouse on the first floor. The playhouse is a traditional piece of playground equipment, and when included in the system, it gives children the opportunity to use it as a lookout post across the playground. With its integrated table and benches, it is also possible to enjoy a packed lunch or to play shop.

## Developmental slide

The slide is always a playground favourite, because it's fun and exciting, and helps to stimulate the children's development. When children go on the slide, they train both their gross motor skills and their balance. At the same time, they learn about gravity and judging distance and speed.

## Why choose LEDON Explore?

- Low-maintenance play equipment in natural colours.
- In particular, it challenges and stimulates children's social skills, motor skills and balance.
- The play systems come in a wide range of sizes and price classes to suit every need.
- A theme world that arouses children's natural interest in experiencing and exploring the world.
- The largest theme world with many different items of play equipment for the entire playground.
