## Virok is an all-round play system

Virok can accommodate a very wide age group. Structured according to zones, it can be used by many children at once despite its limited space requirement of approx. 10 x 10 metres. The Virok system incorporates many of the Explore universe's play activities, for example the kitchen and stove, which encourage role-playing. The Virok system also features the swinging jungle hut, suspension bridges, tic-tac-toe as well as the two slides. Even though it's designed for energetic play, it is still safe. All the floors are finished with a specially developed cubit-grain non-slip surface.

## Tic-tac-toe a popular playground game

For many years, tic-tac-toe or noughts and crosses as it is otherwise known has been a popular children's game; in fact, it is one of the most-played games worldwide. Now the game has been brought to the playground as part of the Virok play system. At the bottom of the play panel is the scoring scale who will win the first five games? The pieces are designed with rounded edges so they are comfortable to touch.

## Why choose LEDON Explore?

- Low-maintenance play equipment in natural colours.
- In particular, it challenges and stimulates children's social skills, motor skills and balance.
- The play systems come in a wide range of sizes and price classes to suit every need.
- A theme world that arouses children's natural interest in experiencing and exploring the world.
