# The popular parrot slide

The open parrot slide in the Explore universe is popular with many children. Slides generally act as a magnet on children, who approach them with enthusiasm and smiles. Hurtling at top speed down a slide makes everyone feel exhilarated, but it is also educational. Children learn about gravity, and about judging distance and speed. Finally, slides train children's motor skills and balance.

# A quality-assured slide

All LEDON's open slides are child-friendly with a capital C. The sliding surface is made of a single piece of polyethylene, which will prevent any scratches, and nor is it possible to get splinters in your fingers, which can happen on slides made of wood. As the slide is made of polyethylene, the sliding surface does not overheat in the sunshine. The slides require no special maintenance, and are supplied in an easy-to-assemble format.

### Why choose LEDON Explore?

- Low-maintenance play equipment in natural colours.
- In particular, it challenges and stimulates children's social skills, motor skills and balance.
- The play systems come in a wide range of sizes and price classes to suit every need.
- A theme world that arouses children's natural interest in experiencing and exploring the world.
- The largest theme world with many different items of play equipment for the entire playground.

## **Specifications**

#### Article number 500225G: In-ground mounting 500225C: Surface mounting

**Recommended ages** From 2 years

**Product dimensions (LxWxH)** 270 x 54 x 165 cm

Area requirement incl. safety distances (LxW) 620 x 354 cm

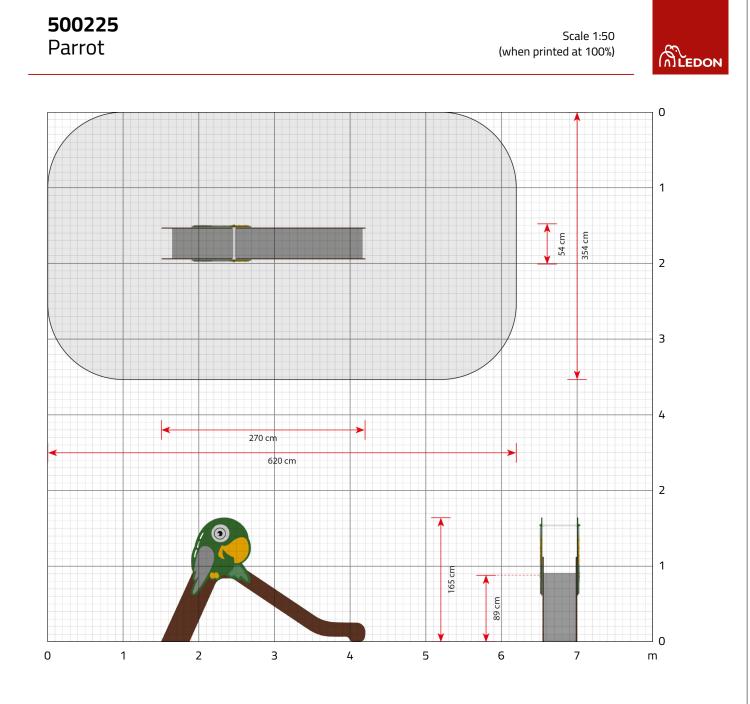

Max. fall height 89 cm

**Recommended ages** 1 person 3 hours
