- Made in Denmark
- Developed with children
- Low-maintenance
- Sustainable materials
- Fully certified

### Obstacle courses in different shapes

Does a low-maintenance obstacle course that can be mounted directly on the ground sound like something for you? Then the obstacle courses in the LEDON Basic series are a good start.

Our O-shaped obstacle course gives you a selection of our balance equipment. It has the shape of a circle, which is ideal for the game tag.

When children are balancing on the course and play games such as tag and 'the floor is made of lava', their cerebellum is exercised. The cerebellum controls the muscle strength used when children, for example, hold a pen or lift a glass of water. A game like tag also improves the children's spatial awareness, as they must constantly keep an eye on the one catching them and where they have to go next.

### The sky's the limit

The obstacle courses can be constructed in countless ways to fit your exact needs and price range. You can use our composite obstacle courses as inspiration or suggestions for your own dream course. It is also possible to buy the package deals as they are, or change single elements, if you should want that. Like the rest of the LEDON Basic series, the balance equipment is made of recyclable materials and is optimized, which ensures a competitive price.

### Why choose LEDON basic?

- All the basic elements you need for a good-quality budget-priced playground.
- Compact towers, which require little space.
- The systems are available in a wide range of variants to meet any need.

### Specifications

#### Article number

LB0810: In-ground mounting

#### Recommended ages

From 2 years

#### Product dimensions (LxWxH)

360 x 340 x 100 cm

#### Area requirement incl. safety distances (LxW)

660 x 640 cm

#### Max. fall height

92 cm

#### Other details

- This is a new product
- This product can be installed directly on grass without additional fall protection
